

CPZ

POLYETHYLENE TANKS FOR ABOVE GROUND

1.500 - 2.000

For drinking water

Suitable to contain liquids other than water, in compliance with the table of resistance (page 103)

For above ground use only

For use with chemicals, see the table of tank chemical resistance (page 103).

ELBI guarantees the resistance of PLASTO tanks to liquids declared suitable (R) in the table of tank resistance.

Maintenance of the characteristics of the liquids contained inside of PLASTO tanks should be checked by and is the responsibility of the user.

INSTALLATION IN SERIES:

Keep an adequate distance (min. 20-25 cm) between the tanks to enable them to dilate freely during the filling phase.

Version without holes available.

WARRANTY: 2 YEARS
